

Misys Open Source Solutions (MOSS) Consulting

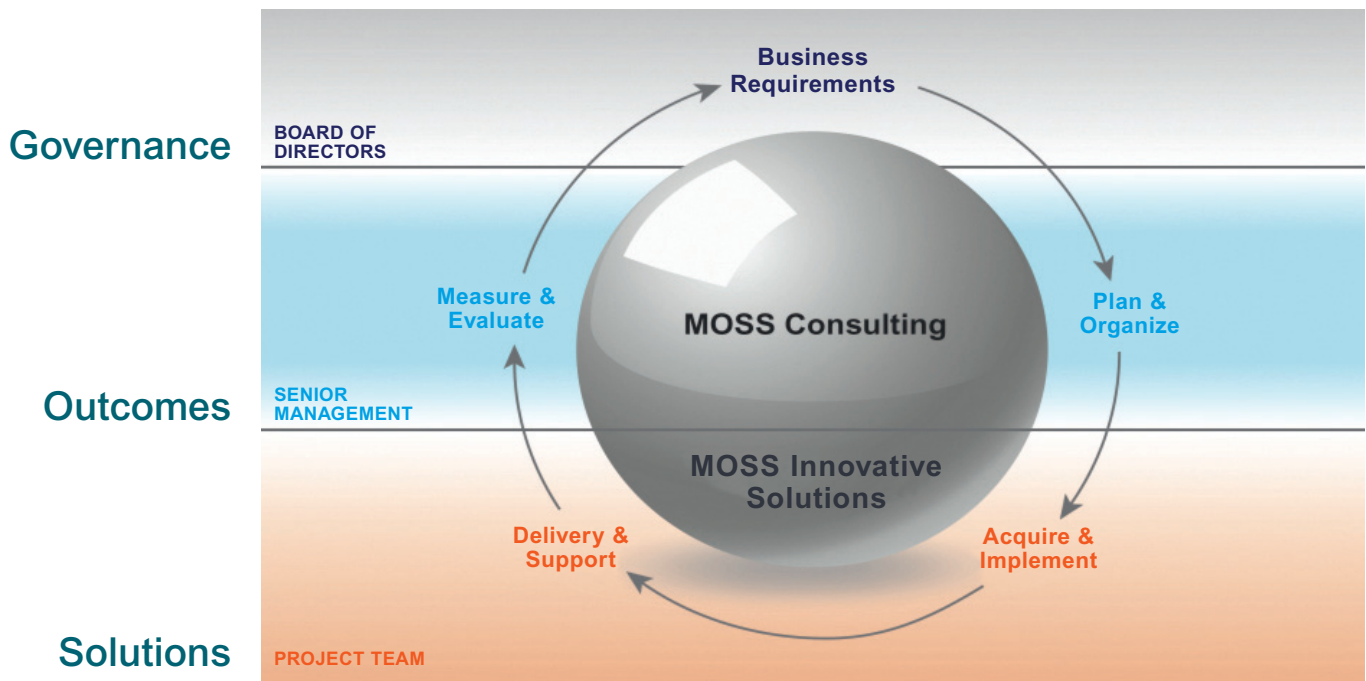

Vision → Plan
Health Information Exchange
Your Community | Your Values | Your Solution

“If you don’t know where you’re going, any road will get you there.”
- Lewis Carroll

MOSS Consulting specializes in two deliverables:

1. Establishing a formal governance framework
2. Creating a Roadmap for your HIE

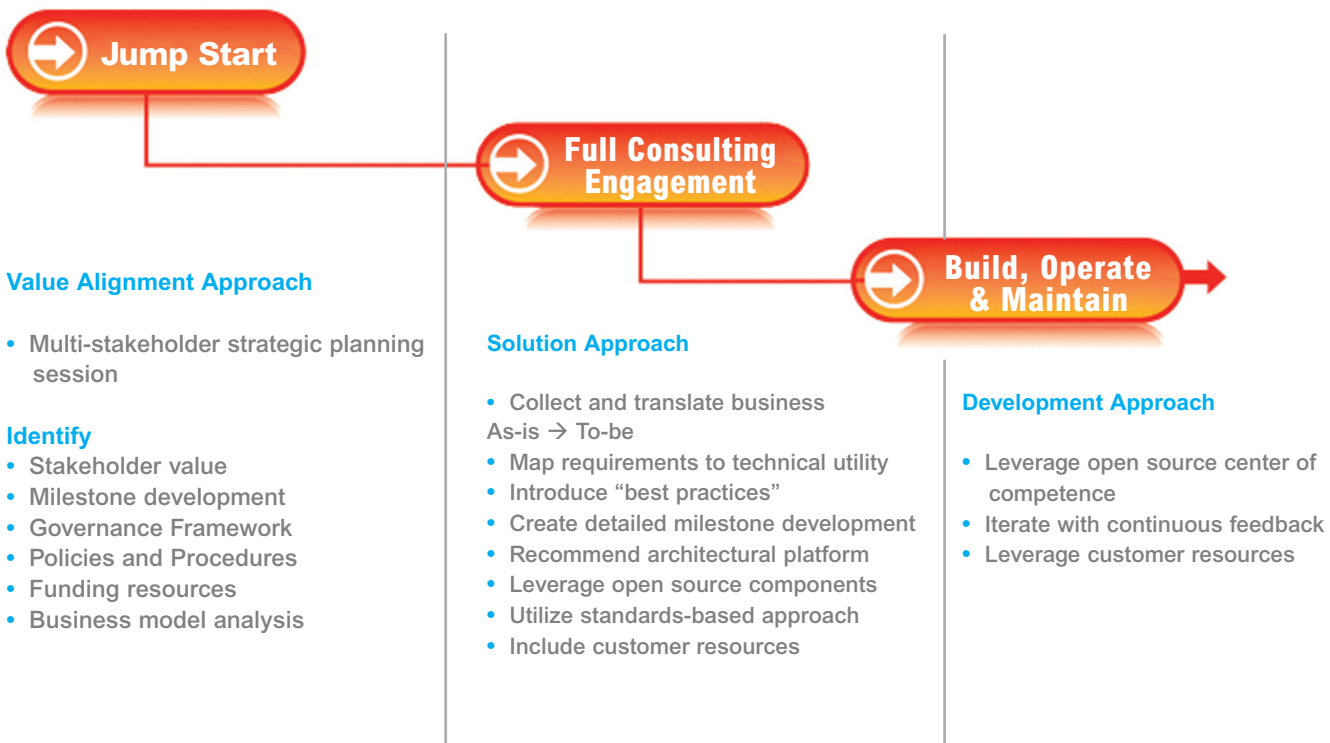

The MOSS methodology combines the internationally accepted guidance materials from COBIT* with decades of experience in organizational change management. When working with MOSS Consulting your community will establish a formal governance framework and a roadmap based on its definition of success.

* The COBIT framework is the property of the Information Systems Audit and Controls Association and has been referenced with permission. For more information about COBIT please visit, <http://www.isaca.org>
